TRANSFER BOARD - WOODEN

Description: Transfer board (wooden)
Made from 18mm plywood.
Tapered ends.
Professional spray lacquer finish.
Straight or curved shaped.

Specifications: Plywood - 18mm thick
straight — 720mm long x 250mm wide
curved — 720mm long x 250mm wide
straight narrow — 755mm long x 210mm wide
curved narrow — 640mm long x 210mm wide
Weight Limit — 220 kgs

Codes: Wooden boards

TB1 - Straight (720mm long x 250mm wide)
TB2 - Curved (720mm long x 250mm wide)
TBNS - Narrow Straight (755mm long x 210mm wide)
TBNC - Narrow Curved (640mm long x 210mm wide)

TRANSFER BOARD - PLASTIC

Description: Transfer board (plastic)
Made from 10mm plastic.
Tapered ends.
Non slip pads at both ends.
Hand hold.

Specifications: **Banana** - 660mm long
- 200mm wide
Weight limit - 110kgs

Codes: Plastic Boards
Straight - **TBP1**
Banana - **TBP2**

The Plastic Board is NOT designed for lifting but is designed to be used for seated patient transfers across similar height surfaces and gaps no wider than the inside of the anti-slip pads. The boards have a single hand hold to assist with both positioning and transport. They provide low friction movement and offer independence in individual use.

When moving and handling any person, they as a load, can become unpredictable. Ensure the client has suitable sitting balance and upper/lower limb functioning to carry out this activity and can follow and understand commands and instructions.

TASTECH SERVICES LTD

CUSTOM MADE ITEMS

Tastech can custom make items for those odd jobs that our “off the shelf” range do not fit.

Custom made example.

A block - 100x100mm top x 100mm height to suit a couch with extra large feet.

TASTECH SERVICES LTD - A bit about us

Tastech is a family run business that currently has three generations working in our workshop.

We make and supply a quality and affordable range of rehabilitation equipment and daily living aids.

We manufacture all our products in Christchurch, New Zealand

Our workshop offers woodwork session for mainly Head Injury clients. This is a hands on part of our business we all enjoy.

We also manufacture playcentre equipment.

Most of our work is cut out on a CNC machine. This gives us quality, consistency and great flexibility in our manufacturing process.
